## SKILLS

**Languages:** Java, C++,C, Python, JavaScript
**Frameworks:** HTML ,CSS, Tailwind CSS, React.js, Node.js, Express.js
**Database:** MySQL, MongoDB, PostgreSQL
**Tools/Platforms:** Git, GitHub, Linux
**Soft Skills:** Adaptability, Team Collaboration, Quick Learner

## PROJECTS

**Training Management System |Link** Dec' 25

- Developed SkillBridge, a training management system that allows users to register, log in, browse skill-based courses, enroll, and track learning progress.
- Implemented admin-side CRUD operations to manage users and training content efficiently.
- Ensured secure database storage with a responsive and user-friendly interface for smooth and reliable system usage.

Tech Stack: MERN Stack

**CPU-Scheduling Simulator | Link** Apr' 25

- Built a CPU scheduling simulator in HTML, CSS, and JavaScript implementing algorithms like FCFS, SJF, Priority, and Round Robin to analyze process execution.
- Simulated and Visualized scheduling results including Gantt charts, waiting time, and turnaround time improving understanding of CPU performance.
- Engineered an interactive interface to input processes and compare different scheduling algorithm based on efficiency metrics.

Tech Stack: HTML, CSS, JavaScript

**Event Management System | Link** Apr' 25

- Created EventHub, a full-stack Event management web using PHP and MySQL for scheduling and tracking.
- Introduced user authentication, dynamic job assignment, and database-driven scheduling using a structured db.sql schema.
- Designed responsive UI pages with HTML, CSS, and JavaScript to improve user experience.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

## TRAINING

**Advanced Data Structure and Algorithm |Certificate** Jun' 25- Jul' 25

**Lovely Professional University| Jalandhar, IN**

- Gained hands-on experience with Advanced data structures including arrays, linked lists, stacks, queues, trees, graphs, and hash tables.
- Implemented key algorithmic paradigms such as divide & conquer, greedy techniques, and dynamic programming using C++ and Python.
- Applied DSA concepts to solve real-world problems, optimize code efficiency, and improve time–space complexity understanding.

## CERTIFICATES

- Frontend Developer (React) | Hacker Rank | **Certificate** Mar'26
- Cloud Computing | NPTEL | **Certificate** Apr'25
- The Bits and Bytes of Computer Networking | Coursera | **Certificate** Sep' 24
- Responsive Web Design by freeCodeCamp | FreeCodeCamp | **Certificate** Oct'23

## ACHIEVEMENTS

- 50 Day Streak on LeetCode Dec' 25
- Solved 250+ coding problems across different platforms (Leetcode,GFG, HackerRank, etc.) Nov' 25

## EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering | CGPA : 7.11 Since Aug' 23
- **Delhi Model Public School** Patna,Bihar
  Intermediate | PERCENTAGE : 68 Apr' 21-Mar' 22
- **Patna Central School** Patna, Bihar
  Matriculation | PERCENTAGE : 80 Apr' 20-Mar' 20
